

PU Leather BeanBags

PU Leather is a synthetic material designed to give you the look and feel of real leather without the hefty price tag. We have a broad range of bean bags made with PU leather that don't compromise on comfort.

PU leather is ideal for bean bags as it has a soft feel. Sealed around the polystyrene balls that mould to your body shape no matter how you sit, it gives you a feeling of comfort you can't help but love.

Being synthetic means that PU leather can be made in a variety of colours and shades, and our bean bag range covers them all from bright reds and blues to more neutral blacks and browns. Unlike real leather, PU leather also doesn't fade in sunlight, so you can happily relax by a window in your bean bag without worrying about the colours dulling.

One of the best things about PU leather is how easy it is to clean. It's water repellent, so there's no need to worry about drinks spilling, and you can enjoy that peanut butter and jam sandwich in peace as a wipe with a damp cloth will get rid of any food stains.

Our bean bags come in many different shapes and sizes to suit your needs. From our Happy Pig Chair with a supportive back to our huge Maxi Big Hog or Vinja 2 seater for when you want to cuddle up to someone special. We even have football-shaped bean bags for the sports lover in your house. You're guaranteed to find a PU leather bean bag that suits you.
